TRIAL PREPARATION WORKSHOP (Advanced) – JULY 2020

PB Tutoring's Trial Preparation Workshop is a skills-based workshop that teaches students how to negotiate the strenuous requirements of the essay components of the trial examination. Specifically, the course provides students of an overview of the expectations and structure of Trials, and works to arm them with clear, step-by-step processes for deconstructing essay questions, planning responses, formulating argument lines and adapting core content to an array of different question requirements. The workshop also covers the key study skills and practices that students should be implementing in order to achieve the best possible results. To supplement this, students will also receive a personalised resource booklet with targeted exercises to complete in every week leading up to the trials, thus streamlining the study process and allowing for the most effective preparation possible.
